Website Launch!

The website development team has worked on creating our virtual home for months and is now happy to open it to all our supporters and friends.

Overall, the site looks simple and intuitive with images, but it has a potential to be expanded depending on on-going participation and suggestions from you. Each page is fully synchronized with each of our ministerial Facebook Pages so the mission story with photos or video taken on the mission field will be posted on our website in real time.

Among many possibilities, below are three highlights of our website.

- **Connection** – We will be connected to friends and mission partners in a more effective way.
- **Cooperation** – We will be aware of on-going ministries and work towards a common goal as one body.
- **Contribution** – Life-changing opportunities will be given (<http://umccambodia.org/give/>) to be part of God's mission in Cambodia.

I'd like to thank my team for their input, especially the website team members – John and Edmund! I pray that our website not only offers a better communication tool but also unfolds a new way of our Methodist mission in Cambodia.

Container Clinic

*Clergy Trainings by UMC Pastors
(Switzerland, Connexio) in February*

*Container Clinic Dedication
in Snoul Kratie, Feb.27-28*

*Groundbreaking for Church
in Mondulki, March 1*

*Easter Celebration for Street Children at
Light Children Orphanage, March 25*

We praised the Lord for giving us the opportunity to dedicate the first ever Container Clinic in Cambodia. It became a good example of cooperative works among local authorities (PHD-Provincial Health Department, MOH-Ministry of Health, Kratie local government), our CHAD team, and the U.S. supporters (SLS United Methodist Church, Medical Bridges, Texas A&M University). This project even got on the national TV news broadcasting all over Cambodia (available to view on our webpage – www.umccambodia.org). We pray that what we've dedicated to God will be used as the channel of God's grace and mercy for our Cambodian friends.

On a Personal Note...

Andrew – Andrew continues to commit himself to the good works of God in Cambodia. Despite frequent trips to various provinces of Cambodia, he has kept good health and loves connecting with the people of Cambodia!

Janice – Janice completed level 2 of Khmer language class and makes great deals at the markets! She ventures out more on her own and has found cheaper transportations that makes venturing out more accessible to her.

Serena – Serena's latest joy in school is playing dodgeball at school. At first, she wasn't used to the game and was unhappy when people asked her to give up her ball when she had a chance to throw. After 3 months, her friends are passing the ball to her to throw because she always gets the "good people" out from the opposing team!

Reina – Reina just celebrated her 7th year birthday and was happy to say that she's 7 years old because "it felt awkward to be the only 6-year-old in my 2nd grade class." She was thrilled to be given a book, 50 Women Scientists Who Changed the World, saying, "I didn't know there were so many women scientists in the world! You google 'scientists' and only find men. Now I can be inspired by these women scientists who changed the world!"
