Students Go on Field Trips from School

The rainy season is starting now in Cambodia, and it the time for all the farmers to start farming the rice or some other crops. Besides that, we have 2 of our students who are majoring in animal science and veterinarian who had a field trip to visit the villages and the farms. Sou Tongla who studies animal science went to visit a farm in Battambang with her classmates. And Lim Laiheang who studies to become a veterinarian went to visit a village in Pursat to teach about some animal diseases and the way to prevent animals from those diseases.

Lim Laiheang and her classmates explain about animal diseases to people

We have fun during our bible study!

We used to study English with Bong (sister) Rachel every Thursday. But because Rachel left, we do not have English class anymore, so we decided to play some games during our bible study. And YES, we had so much fun trying to guess our own words by asking our friends the Yes/No question in English. Through this game, we learned how we cannot see or know what we are doing right or

wrong in our lives. We discussed that this is why we need to ask God to guide us in the right way so that we can live out God's will and be pleasing to God.

Graduation Ceremonies!

We are so proud of our 1st and 2nd year graduates from Susanna Wesley House who are receiving their degrees officially (no ceremonies were possible due to the pandemic). Six of them attended the same university which is Royal University of Law and Economics. It was a special event for all of them and their family who can come to celebrate their graduation together. One of the parents who came to celebrate with her daughter said: "I am really proud of my daughter that she received her degree, and I am very happy that she can wear the graduation gown!"

How to Support: An annual tuition for most of the universities in Phnom Penh is about \$700.
