

Helen's Newsletter

Dear Friends,

Just sending you greetings from Phnom Penh Cambodia. 2023 has just passed with wonderful experiences, collaboration, strengthened relationships and meeting new friends. And the New year makes us anticipate new adventure as we partner with each other to a new and exciting collaboration ahead.

Just arrived from Philippines for my 1 month home leave. It is wonderful to reconnect with friends and families to be revived and refreshed, reminding us where we started.

Coming back with a heavy heart as my eldest daughter is still sick, I am back to work, finishing reports, regular evaluation and planning for the coming year. Some of the updates of our programs are attached here.

Prayer request:

Please pray for Jielen, my daughter who is undergoing tests and scan right now. They found an enlarged lymph node. So we're asking prayers to all.
