

Sustainable Development

The first quarter has been significantly busy for the CHAD program as we faced out some of our larger projects we turned our focus to sustainable development. Clean water and Health and hygiene projects have been our pivot areas

Working alongside communities that have little or no access to these resources we have offered collaborative activities to help build capacities in areas that may be lacking such as children's hygiene practices, water conservation and even recycling

Our goal continues to be a movement towards self reliance, community building and sustainable development.

As the future of the planet hangs on a precipice we believe it is paramount to be engaged and do our part to help nature recover and for those who might bear the brunt of climate change and the catastrophes that come with it, offer a buffer until there is repair

CHAD is CERTIFIED GRATEFUL for...

20 wells dug in two villages to provide water to over 20 families and 100 individuals

Successful training of well recipients on subsistence farming

Successful provision of first seedling to jumpstart the process

Successful Clean Water assesment in Beantey Meachey

Collaboration with partners to help bring completion to these well digging projects

Provision of 67 water filters to families that need it the mmost.

SPOTLIGHT WELL AND WATER FILTERS BENEFICIARIES

SUCCESSSES

- 20 WELLS DUG
- 67 WATER FILTERS PROVIDES
- SEEDLINGS PROVIDED
- HYGIENE TRAINING IN 2 VILLAGES FOR BOTH ADULTS AND CHILDREN

HEALTH ACTIVITIES

This quarter we are grateful for health activities that we did with collaboration of local health support such as health centers and their staff

CHAD Managed to collaborate with two Health centers in Kratie province that is Da HC and Kantout HC in training the Village Health Support Group (VHSG). CHAD showed our appreciation to them for the long years of with a small token of T-shirts to show their hardwork.

HEALTH ACTIVITIES DATA

- VHSG TRAINING FACILITATED: 2
- PARTICIPANTS: 84
- FACILITATORS: 8 from Health Centers; 2 from CHAD
- HEALTH CENTERS: 2
- PROVINCES: 1
- PROVINCIAL HEALTH NETWORK MEETING PARTICIPATED(in person): 3
