

Hi friends as you know me, my name is Boungern Pasuevang (Nya). I was born in the countryside, in a family with many siblings and parents who were drug addicted. In my childhood I used to be shy, I had no dreams and no hope because our family was poor and had no money. When I was 19 years old, I got to know God (Jesus) and he changed my life. God gave me the courage to step out of my village and gave me a new perspective for my life.

Through the goodness of God, I finished college, had the chance to work and serve as a house leader and could join a discipleship program. After that, I had the opportunity to practice my faith through volunteer work in Nepal. My heart is filled with joy to serve the Lord and my passion is to share the love of God with others, in Laos or in another country.

Now the door opened to go and serve in Cambodia with Global Mission Fellows. I'm part of the two-year young adult mission program that focuses on engaging and networking in the community, as well as growing in personal and social holiness. This is a great opportunity!

I will serve at the Susanna Wesley House, which is a dorm for university students who come from provinces where there is a lack of opportunities. Here I will work as an activity coordinator, which involves leading devotions, visitation, listening to them and doing other activities such as cooking, choir or sport. I'm very excited and hope to become a blessing to those girls and the communities in Cambodia

In the two years of my ministry, I need \$300 per month, which includes food, transportation and housing. If you are interested in supporting me in prayer or financially, please contact me.

I also created a WhatsApp group to update you regularly about my prayers.
