

NEW YEAR, NEW DAWN

2025 was a welcoming year, a fresh start but at the same time a continuation of the work that CHAD has been doing. This quarter has been all about renewing. CHAD has been working on renewing the MoU with the Ministry of health so we can proceed with the good work that we have been doing for the past fourteen or so years.

This has been the bulk of the work this quarter and it is still ongoing and we hope for a positive outcome with our long-term partners

We are grateful to our partners in the health care department for continuing to work alongside CHAD and we hope to continue doing so.

As we renew our MoU we continue to attend the Pro-TWGH meetings in Kampong Chhnang and Kratie which are a source of important information on the health status and strategic plans of Cambodia

The VHSG training are also a part of the quarterly plans that CHAD continues to implement strongly to help Cambodia achieve its health objectives

Peam VHSG training

**Svay Chhreas HC
Kratie Province**

**Pro- TWGH Meeting
Kampong Chhnang**

**Peam HC Meeting
Kampong Chhnang**

CLEAN WATER AND HYGIENE

CHAD continues its clean water project to ease the suffering of water insecure communities all over Cambodia.

This quarter CHAD carried out clean assessment in 5 communities that suffer for incredible water scarcity and poverty.

The communities have no access to water, and if there is water present they cannot afford it.

**Koh Ream CW assessment
Battambang**

**Dong Traing CW assessment
Banteay Meanchey**

**Thak Ruh CW assessment
Kampong Chhnang**

**Prey Chhrov CW assessment
Kampong Chhnang**

This season we have began digging and by the end we hope to have at least thirty wells in Kampong Chhnang, Battambang and Banteay Meanchey Provinces.

CHAD IS GRATEFUL FOR:

- We are continuously grateful for our supporters and those who enable us to continue doing this good work. We appreciate all those who have contributed towards the provision of water to the most vulnerable people
