COMMUNITY HEALTH, AGRICULTURE DEVELOPMENT

NEWSLETTER

CLEAN WATER

Clean water is a basic need for people. So the CHAD program is deeply committed to provide rain water projects, wells and water filters

TRAININGS

CHAD has a deep desire for continuous growth and development so, we always do our best to attend trainings with our partners.

PARTNERSHIPS

CHAD is also thankful for our partners that supports us in our ministries that enables us to help more people who are in need.

GROWING AND NURTURING

PHC training: it focuses on the key point for the primary health care and push the authority to provide health care education for the people in the community

CHAD also supports PHC-BIF training. It is a government training about primary health care, joined by all of the government staff and authority in the district. It is led by the PHD staff and officials

STRENGTHING NETWORKS

MINISTRY OF HEALTH CONFERENCE

We continuously keep our networks by attending conferences. CHAD attends Ministry of Health conference, that aims to strengthen our relatioship with the government.

SUPPORTS IN VHG

CHAD still supports VHG through 2 health centers in Kampong Chhanang and 2 in Kratie

60+	Female: 30 Male: 0	30
Total	**Female: 399 Male: 132**	**531**

Well digging in Kampong Chhnang

Here are some beneficiaries of the well in Kampong Chhnang. CHAD stays connected with them to monitor and follow up the wells. We have monitoring in the middle of the year.

The monitoring is to ensure that the water is enough, and still clean and safe to use.

Water Filter

We are so grateful to our donors because with your unwavering support we are able to distribute these water filters.

VHG Kratie

Community in Kratie

Refugee camp visit

Behind is the refugee camp located near the boarder. The people living here are victims of the conflict between Thailand and Cambodia boarder. There are more than 3,000 families living here with limited access to clean water. The CHAD team are trying to find ways to give help to them.
